

Mail Cabinets

Teyco's mails are a patented equipment that minimises the necessary space and environmental incidences of R/M stations for canalized gas distribution in rural and urban zones.

Security of fixed cost installation. Cabinet(patented): Built in metal sheet INOX(aisi 304).

Movable and removable, with normalized lock, can be painted in the most appropriate colour.

Most reduced dimensions as can be seen in the picture below.

Teyco has its components approved under its quality system and under all categories of the directive 97/23CE.

Technical data:

Inlet Pressure: 0-16 bar
Outlet Pressure: 0.02-6bar
Differential Min: 0.5bar
Securities: Max/Min
Accuracy: RG2.5 and SG5
Speed: Max 30m/s
Noise level: Max 50/70dB
Working Temperature: -20, +60°c

Maintenance:

Very easy access to all components independently. As it is easily removable, all pipes are reached perfectly.

Options:

- 1 or 2 filtering and regulation lines.
- Counter.
- Telemetry and telecontrol availability
- Instrumental cabinets.
- Relief valve.
- Register.
- Data-logger.
- Isolating joints.
